

Minutes, 12/06/2011 Meeting

1. Minutes for the 11/29 meeting were approved.
2. The draft guidelines for preparation of the 2013 budget were amended to acknowledge 1% inflation in departmental operating expense.
3. Additional SS data, tracking both citations and income deriving from infractions by in and out-of-state drivers from the inception of the program were reviewed. The data indicated that in excess of 90% of citations issued yielded payments but also raised questions as to whether the full amount of penalties due as a result of late payment were being collected and credited. Ms. Davis-Cook was asked to ascertain what may be underlying this apparent anomaly.
