

Chevy Chase Village's Environment & Energy Committee

Invites you to Attend

Battery-Powered Leaf Blower Demonstrations on the Village Greens

Saturday, November 9 at 11:00 AM

Large Oliver Street Park (where the July 4 Party is held)

Saturday, November 16 at 11:00 AM

Newlands Park (on Connecticut Ave. at Newlands St.
across from Chevy Chase Club)

Now that fall is upon us and leaf blowers are in full swing, the Village Environment & Energy Committee is organizing demonstrations of Battery-Powered Leaf Blowers and other landscaping equipment to give residents an opportunity to see these cleaner and quieter alternatives to gas-powered blowers in operation. Residents will have a chance to compare performance and price of "traditional" gas blowers vs battery-powered blowers and to talk with landscape operators who will do the demonstrations.

Demos will be held on two Saturdays and one weekday in November. Confirmed dates are Saturday mornings, November 9th at 11:00 at the Oliver Street Park (where the 4th of July picnic takes place) and November 16th at 11:00 at Newlands Park (on Connecticut Avenue across from the Chevy Chase Club). A third demonstration will be scheduled during a weekday morning in November, geared toward landscape contractors who typically do not work on weekends. The date and time for this third event is TBD, and will be announced in the Village's Weekly Email Blasts.

Do yourselves and your neighbors a favor! Come and see what today's greener landscaping equipment can do, enjoy some cornbread and apple cider, and get a free raffle ticket for a chance to win a battery-powered blower!

The demonstrations are open to all! For more information, contact the Village office at ccv@montgomerycountymd.gov or (301) 654-7300.
