## Where are the bikes going?

We are donating the bikes to Bikes for the World, whose mission is to make affordable, good quality used bicycles available to low-income people in developing countries. Bikes for the World also generates additional skilled employment in bike repair and maintenance overseas. Since 2005, Bikes for the World has donated 160,000+ bikes, improving 650,000 lives.

**Would you like to participate, but are unable to deliver your used bike yourself?**

Your neighbors are willing to help! Please contact Ollie at [priubpart@aol.com](mailto:priubpart@aol.com) with “Bike Pick Up” in the subject line. He will coordinate with you to pick up your bike between 9am - 5pm the week of April 12th.
