

Rapid COVID-19 Test Kit and N95 Face Masks **Available at the Village Office** **- While Supplies Last-**

Montgomery County's Departments of Health and Emergency Management have provided the Village with a supply of rapid (antigen) test kits and N95 masks for distribution to the community. Village residents may stop by the Village office **Monday-Friday, from 9:00 a.m. through 5:00 p.m.** to pick-up masks and test kits. (If you are unable to come to the Hall during those hours, please email ccv@montgomerycountymd.gov to make alternate arrangements.)

Test kits and masks are available on a first-come, first-served basis while supplies last*. Residents can receive a maximum of two test kits (each containing two tests) and six N95 masks per person present, per visit. Under the operating rules mandated by the county, we are not permitted to provide additional test kits and masks for family members who are not present.

***NOTE:** While this distribution is being advertised to residents of Chevy Chase Village, under our agreement with the county we are not permitted to confirm residency or limit distribution to those who reside in the Village.*

If you have any COVID-19 symptoms:

- Do not come to the Village Hall to collect rapid test kits or masks.
- Contact your health care provider or [make an appointment for a PCR test.](#)

Test Kit Information

- Each kit contains two antigen rapid tests which detect certain proteins in the SARS-CoV-2 virus that causes COVID-19.
- Samples are collected via a nasal swab.
- The test will give results in 15 minutes; no laboratory needed.
- County residents are encouraged to submit test results through the county's [self-reporting portal](#).
- If you have questions about the test itself, visit the manufacturer's website.
- If you have questions about your test results, contact your healthcare provider.

N95 Mask Information

- Masks are adult-size ZYB-11 (a brand of N95 mask). We do not have child-size masks.
- The Centers for Disease Control and Prevention (CDC) [updated mask guidance](#) to emphasize protection against COVID-19 spread. N95, KN95 and KF94 respirators, or masks, provide higher levels of protection against COVID-19. Along with [getting vaccinated and boosted](#), wearing a well-fitting mask over your nose and mouth in indoor public settings or in outdoor crowds is important to protect yourself and others from COVID-19.

**We will post a notice to the homepage of the Village website and send a blast email to alert residents if supplies run out.*
